ABOUT OUR PROGRAMS

ACCIONA seeks to improve people's quality of life, through dialogue and support for the communities where we have a presence.

We know that no two communities are the same, so for each project we work with the community to create a unique **engagement** and **benefits program** that shares the value of the project throughout the local area, in a way that really matters.

ACCIONA implements an annual Scholarship Program at our sites when they enter the operations phase. Each year, we are proud to provide a one-time scholarship of \$5,000 to a student wishing to undertake tertiary study that will benefit the communities in which they live.

ELIGIBILITY CRITERIA

Scholarship recipients are selected through an application process, and preference will be given to those studying engineering, science or agricultural based courses. The purpose of the Scholarship program is to support the communities where we operate, invest in education and support individuals who wish to undertake tertiary study that will benefit their community.

The scholarship program is open to all students from the Upper Lachlan Shire NSW, who have recently completed high school, and are wishing to enter into further study at TAFE or University in 2021.

TIMING

Applications for funding closes on Friday 26th March 2021.
