Pollution Incident Response Management Plan Summary

Pollution Incidents

Under Part 5.7 of the POEO Act, there is a duty to notify each relevant authority (identified below) of a pollution incident, where material harm to the environment is caused or threatened. Material harm includes actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial or that results in actual or potential loss (refer definitions) or property damage of an amount over \$10,000.

Community Notifications:

Early warnings for affected or potentially affected community members for any significant/catastrophic pollution incident will be communicated to those members via a door knock process.

For air pollution incidents that may affect community members, those community members may be asked to either close their doors and windows and stay indoors until further notice or the vacate the premises. For water pollution incidents that may affect community members, those community members may be asked to avoid use of the water until further notice.

APS will provide regular updates of any pollution incidents either via letterbox drop, notices in local papers and/or via door knocks as required.
